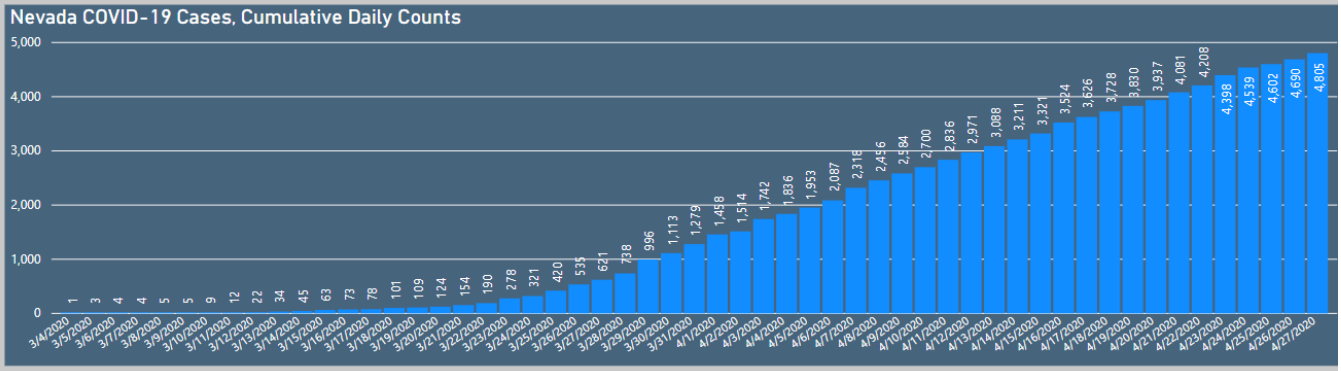
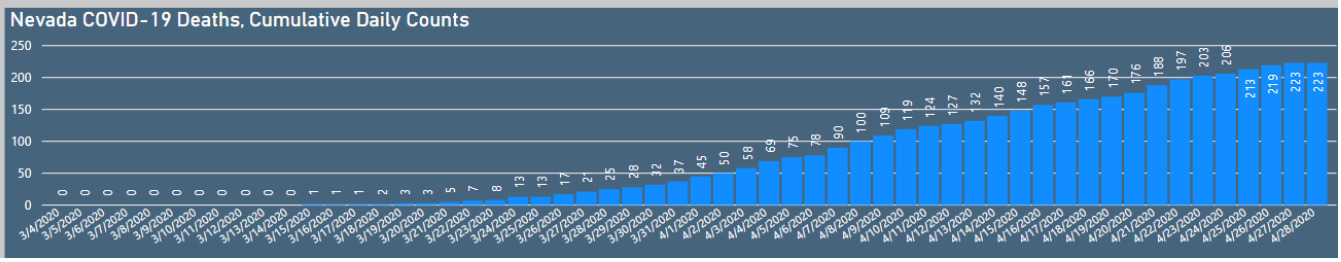
COVID-19 CASES IN NEVADA





As of 4/8/2020 cumulative daily death counts are displayed by date of death, rather than the date that the death was reported to the state. The total count for statewide deaths on the first tab may not equal the sum of the cumulative daily death counts because of cases where exact date of death is unknown or pending report.

STATE OF NEVADA COVID-19 UPDATES

[APRIL 28, 2020] Nevada Governor Steve Sisolak announced today he will roll out the Nevada United: Roadmap to Recovery plan later this week. The federally supported, state managed, and locally executed plan will be unveiled this Thursday, April 30, 2020. **FOLLOW** the Governor's Twitter for real-time updates.

[APRIL 28, 2020] Governor Sisolak announced the Nevada Hospital Association is preparing to resume medically necessary procedures for care that have been delayed due to the COVID-19 outbreak. This move aligns with other states that have previously restricted these types of procedures, and are now relaxing restrictions. The Nevada Medical Advisory team also supports this phased-in approach as long as they're performed under strict guidelines, which include clinical judgment, established guidelines, sufficient availability of PPE, flexible policies permitting immediate response to any COVID-19 surge, and alignment with established guidelines developed by the CDC and other regulatory agencies. To learn more about the resumption of limited medical and dental procedures, click **HERE**.

WHAT NEVADANS CAN DO TO HELP

Nevada Health Response
Published by Samantha Thompson [?] · 20 hrs ·

It is important to protect ourselves from the harmful effects of stress, isolation and anxiety. Crisis Support Services of Nevada is available 24 hours a day, seven days a week, 365 days a year to help anyone experiencing a personal crisis by offering free, confidential and caring support. Call 1-800-273-8255 or text CARE to 839863.

REPORT CHILD ABUSE OR NEGLECT.

Nevada Department of Health and Human Services
DIVISION OF CHILD AND FAMILY SERVICES

See the signs, make a call!

Possible warning signs of abuse*:	Possible warning signs of neglect*:
Bruises, welts, or other injuries without plausible explanation	Poor hygiene or clothing that is consistently torn, damaged or inappropriate
Injuries with a pattern that appears to be caused by something such as an object or hand	A child that is unsupervised or left alone in unsafe situations
A child that is fearful of returning home	Lack of food
Frequent injuries	A child that appears thin or malnourished
Watchful and alert as if waiting for abuse to occur	A young child left unsupervised or alone

*This list is not definite of all signs of abuse or neglect.

Who to call to report suspected child abuse or neglect:
Clark County Department of Family Services: (702) 399-0081
Washoe County Human Services Agency: (775) 785-8600
(For all other counties in Nevada)
Division of Child and Family Services: (833) 803-1183

Scammers are out in force, taking advantage of all aspects of the Coronavirus pandemic!

- **Stimulus Checks** - For trusted information and updates about economic impact payments visit: irs.gov/coronavirus.

  - ✓ The IRS will *not* send you an overpayment and make you send the money back in cash, gift cards, or through a money transfer.
  - ✓ That's *not* the IRS calling, texting, or emailing.
  - ✓ U.S. Secret Service/ U.S. Treasury https://www.secretservice.gov/data/press/releases/2020/20-APR/Check-Security-Features-for-Economic-Impact-Payments.pdf to help taxpayers, banks and retailers avoid counterfeit check fraud related to the payments

- **Mortgage Fraud** – Scammers are increasing attempts to harm homeowners, mortgage borrowers, and renters through housing scams, relief scams, and mortgage fraud.

- **Protect yourself, your personal information and your wallet** - Scammers are exploiting confusion about economic impact payments, loans, fake Coronavirus vaccines, unproven cures, and bogus at-home testing kits.

U.S. STATE DEPARTMENT	CENTERS FOR DISEASE CONTROL
LEVEL 4 – DO NOT TRAVEL	**LEVEL 3 – AVOID NONESSENTIAL TRAVEL**
The Department of State advises U.S. citizens to avoid all international travel due to the global impact of COVID-19. In countries where commercial departure options remain available, U.S. citizens who live in the United States should arrange for immediate return to the United States, unless they are prepared to remain abroad for an indefinite period. At present the Department of State is making every effort to assist U.S. citizens overseas who wish to return to the United States. As the Covid-19 situation develops, our ability to provide such assistance working with commercial airlines or arranging for evacuation flights may become more limited or even unavailable. In recent weeks, commercial airlines have significantly reduced flight schedules and countries have closed airports and borders with little advance notice. If you wish to return to the United States, you should make arrangements to do so now and contact the nearest U.S. Embassy or Consulate for assistance as needed. There is no guarantee that the Department of State will be able to continue to provide repatriation assistance and transportation options to the United States may be unavailable in the future. If you choose to remain overseas, you should be prepared to remain where you are for the foreseeable future. U.S. citizens who live abroad should avoid all international travel.	• Widespread ongoing transmission of a respiratory illness caused by the novel coronavirus (COVID-19) is occurring globally. • **CDC recommends that travelers avoid all nonessential international travel.** • Older adults and people of any age with serious chronic medical conditions are at increased risk for severe disease. • There may be limited access to adequate medical care in affected areas. • US residents may have difficulty returning to the United States. • Travelers should avoid contact with sick people and wash their hands often with soap and water for at least 20 seconds. If soap and water are not readily available, use an alcohol-based hand sanitizer that contains at least 60% alcohol. • All international travelers should stay home for 14 days after returning from travel, monitor their health, and practice social distancing.
