*As of 4/8/2020 cumulative daily death counts are displayed by date of death, rather than the date that the death was reported to the state. The total count for statewide deaths on the first tab may not equal the sum of the cumulative daily death counts because of cases where exact date of death is unknown or pending report.
CARES Act Relief Options
If your mortgage is a federally backed mortgage, you have two mortgage relief options under the CARES Act.

First, your lender or loan servicer may not foreclose on you for 60 days after March 18, 2020. Specifically, the CARES Act prohibits lenders and servicers from beginning a judicial or non-judicial foreclosure against you, or from finalizing a foreclosure judgment or sale, during this period of time.

Second, if you experience financial hardship due to the coronavirus pandemic, you have a right to request a forbearance for up to 180 days. You also have the right to request one extension for another up to 180 days. You must contact your loan servicer to request this forbearance. There will be no additional fees, penalties or additional interest (beyond scheduled amounts) added to your account. You do not need to submit additional documentation to qualify other than your claim to have a pandemic-related financial hardship.

Mortgage forbearance is one of the things Nevada negotiated with mortgage lenders as part of the moratorium.

Participating lenders — which include members of the Nevada Bankers Association, the Credit Union League and the Mortgage Lenders Association — agreed to give homeowners who are facing financial hardship a 90-day grace period to delay their mortgage payments. The grace period applies to Nevadans who have either contracted COVID-19, are taking care of someone who is ill, or workers who have lost their jobs or seen their hours cut as a result of the novel coronavirus’ impact on the economy.

Late fees will be waived during this time and borrowers will not be reported to credit agencies, provided that they notify their lender about their inability to make their payment. It is especially important to communicate with your lender because not all mortgage providers or servicers are providing a grace period (others are also providing grace periods that are longer than 90 days).

UNIQUELY NEVADA
- Nevada’s cautious and measured reopening is more challenging than other states.
- Our vibrant gaming and tourism economy deserve the best chance of a strong recovery.
WHAT NEVADANS CAN DO TO HELP

MORE PATIENCE, FEWER PATIENTS
#StayHomeForNevada

“This is something that Nevada does. We recover, and we come back stronger.”
– Caleb Cage, Nevada Incident Commander

#BrighterTogether
We can all spread the light and show our care and compassion for those who may be suffering from and have been impacted by COVID-19.
NEVADA HERO OF THE DAY
MICHAEL CALAMIA
Michael works six days a week as a manager at Albertsons to help members of his community purchase essential items.

Thank you, Michael, for playing a vital role in the health of Nevadans.

NEVADA HERO OF THE DAY
JESSE KATSARIS
Jesse has provided free installation and two months of free home Internet service to 72 low-income families with school children who lack Internet service.

Thank you, Jesse, for ensuring all Pershing County students can participate in distance learning!

NEVADA HERO OF THE DAY
AIYANA CASTRO
Aiyana, 11, is volunteering her time collecting face masks and providing meals to families in need.

Thank you, Aiyana, for representing the potential and giving spirit of Nevada's youth!

NEVADA HERO OF THE DAY
NICOLE LAMBOLEY
Nicole, CEO of Food Bank of Northern Nevada, has partnered with Washoe County School District, Reno-Sparks Convention Center, and several businesses to distribute emergency boxes of food.

Thank you, Nicole, for keeping food on the table for so many northern Nevadans!

NEVADA HERO OF THE DAY
FRANCIS MOJICA
Francis, a certified nursing assistant (CNA), is working overtime on the front lines to support the nursing staff at Summerlin Hospital in Las Vegas.

Thank you, Francis, for helping to battle COVID-19 on the front lines.

Confirmed cases of Covid-19 in the US

Confirmed cases: 1,103,995 (Today: +534)
Deaths: 65,063 (Today: +120)

Last updated 2 May 8:25am EDT Source: Johns Hopkins CSSE *Note: The CSSE states that its numbers rely upon publicly available data from multiple sources.
The Department of State advises U.S. citizens to avoid all international travel due to the global impact of COVID-19. In countries where commercial departure options remain available, U.S. citizens who live in the United States should arrange for immediate return to the United States, unless they are prepared to remain abroad for an indefinite period. At present the Department of State is making every effort to assist U.S. citizens overseas who wish to return to the United States. As the Covid-19 situation develops, our ability to provide such assistance working with commercial airlines or arranging for evacuation flights may become more limited or even unavailable. In recent weeks, commercial airlines have significantly reduced flight schedules and countries have closed airports and borders with little advance notice. If you wish to return to the United States, you should make arrangements to do so now and contact the nearest U.S. Embassy or Consulate for assistance as needed. There is no guarantee that the Department of State will be able to continue to provide repatriation assistance and transportation options to the United States may be unavailable in the future. If you choose to remain overseas, you should be prepared to remain where you are for the foreseeable future. U.S. citizens who live abroad should avoid all international travel.

Widespread ongoing transmission of a respiratory illness caused by the novel coronavirus (COVID-19) is occurring globally.

CDC recommends that travelers avoid all nonessential international travel.

Older adults and people of any age with serious chronic medical conditions are at increased risk for severe disease.

There may be limited access to adequate medical care in affected areas.

US residents may have difficulty returning to the United States.

Travelers should avoid contact with sick people and wash their hands often with soap and water for at least 20 seconds. If soap and water are not readily available, use an alcohol-based hand sanitizer that contains at least 60% alcohol.

All international travelers should stay home for 14 days after returning from travel, monitor their health, and practice social distancing.
