

NUMA NEWS

Public Meeting about NNDA as it relates to the Fallon Tribe

On March 23, the Fallon Business Council held a public meeting in the Business Council Chambers for Tribal members to discuss and learn more about portions of the 2023 National Defense Authorization Act that affect the Tribe and our homelands. Two of the Tribe's attorneys presented and about two dozen Tribal members as well as the Business Council attended.

The NDAA became law on December 23, 2022 and included a number of provisions that affect the Tribe. The Tribe became involved with the NDAA because the law expands NAS Fallon training grounds and bombing ranges by more than 560,000 acres (from 230,000 acres to 790,825 acres total). The expansion centers on B-20, B-17 and B-19 for missile and bomb training, with additional ground training area in Dixie Valley where public access will continue. The Tribe strongly and successfully opposed the proposed expansion for several years.

In 2022, it became clear that the 2023 NDAA would likely allow the expansion so the Tribe advocated for ways in which the Tribe's interests could be protected as much as possible. Tribal leadership worked hard to ensure the NDAA included positive aspects for the Tribe to help offset the harm of the base expansion: More than 550,000 acres are protected under six new federal conservation designations on BLM land, including: the 210,000-acre Numu Newe Special Management Area around B-17 and up through the east side of Dixie Valley, which by law must be managed to protect

Fallon Business Council, tribal members and community come together for public meeting

cultural and religious sites and integrate Fallon Tribal knowledge and expertise; and the 160,000-acre Numunaa Nobe National Conservation Area protecting the Stillwater Mountains.

The Tribe will gain 10,000 acres of Reservation trust land immediately adjacent to the existing Reservation. While this is still not nearly as large as the original Reservation and the Tribe rightfully deserves more land, the addition will double the size of the Fallon Indian Reservation. The Tribe will receive \$20 million from the Navy to construct and endow operation of a culture center to help sustain Numu Newe knowledge, culture, language, and identity associated with aboriginal land and traditional ways of life.

On the expanded NAS Fallon training grounds and ranges, the Navy is required to do all of the following: complete cultural resources surveys and an ethnographic study through

a contractor before the Navy can begin using the expanded areas (Tribal members can be paid to help – contact the THPO for info); guarantee tribes access to the ranges at least 4 days/month; protect cultural sites from target areas; and assess past damage to Fairview Peak, Medicine Rock and Fox Peak and consult with the Fallon Tribe to mitigate that damage.

While the NDAA is fundamentally flawed because the continued abuse of our lands can never be condoned, there are several important pieces of the law that are of value to the Tribe, our peoples, and our lands. The Tribe could have gained nothing, but we fought hard, met many times with Congressional representatives and Biden-Harris administration officials, and developed powerful allies. In the end, the Tribe didn't get everything it wanted, but we won some key victories.

The work continues.

A slow start to spring brings flood threats to our community

By Jill Wright tribalnews@fpst.org

As we are anxious for the warmer weather and ready to welcome spring, the quicker it warms up the greater the flood threat will be for our area. We are in a precarious situation with the amount of snow that has fallen in the Sierra Nevada Mountains area this season. The effect of the slow spring and tons of late season moisture has increased the probabilities dramatically of major flooding and has prompted Chairwoman Williams-Tuni to attend a town hall discussion at the Rafter 3C Arena with Churchill County, City of Fallon, Truckee Carson Irrigation District and Bureau of Reclamation officials regarding current high water mitigation efforts on measures being taken to prevent flooding.

At the public meeting there were discussion about the differences between 2017 and 2023 situation and response. In 2017 Northern Nevada was hit with 2 back to back floods in January and February with lots of intense snow and warm rain. Lahontan Reservoir received an excess of 90,000 acre feet of water in about 5 days. The amount of water going into the Carson River about 2.5 to 3.0 times Lahontan Reservoir capacity. Lahontan Reservoir emptied twice before September. The Spring thaw conditions had record snowpack in the mountains, soil saturation throughout the Carson River, and warm spring weather. The response was immediate and extensive for a period of time with sandbagging, cleaning out canals, public information, berm for property protection, V Line Weir and the Big Dig.

Photo Credit Chairwoman Williams-Tuni

52 feet and counting snow pack 2023, Lake Tahoe

Although 2023 is very similar in some respects with an Atmospheric Rivers and record snowpack to the Sierra Nevada Mountains, again. We have local and state emergency declarations, but no presidential declaration yet. Current lidar readings show approximately 1.1 million acre feet of water held in snow above 6000 feet. Another difference is we have much colder weather which is shortening the window for water releases throughout spring. There is potential to fill the reservoir three times. The 2023 response so far has been replacing culverts under I-95, berm for property protection, V Line Weir and the Big Dig. Planned Mitigation efforts and the water situation is different working with local, state, and federal partners to coordinate resources for preparedness, response and recovery.

Tahoe 2023

Chairwoman Williams-Tuni stated, “We are hoping for a cool, dry start to April, and I know that a lot of officials are working together and it is their goal to control the flow of water below the dam to keep all residents safe. This includes the tribe as we are carefully planning what needs to be done ahead of time and not waiting until afterwards. I would ask that our tribal community plan ahead and make sure you are prepared for your family’s needs (flashlights, medical supplies, pet food, diapers, etc.) In the event of an overflow at the Lahontan Dam which could increase major flooding and although we are not along the Carson River, we have ditches, irrigation canals and bridges that can be damaged or wiped out by floods from these record-breaking storms. The tribe is taking steps about what can be done to protect both the Colony and the Reservation communities if this happens and we will be having a public meeting soon. “ (TBA)

Taking steps to prevent flood damage may cost more money today but could save a lot in repair and replacement costs for decades to come. Please see the next 2 pages for Flood Safety|Flood Preparedness.

BE PREPARED FOR A FLOOD

Failing to evacuate flooded areas, entering flood waters, or remaining after a flood has passed can result in injury or death.

Flooding is a temporary overflow of water onto land that is normally dry. It is the most common natural disaster in the U.S.

Results from rain, snow, coastal storms, storm surge, and overflows of dams and other water systems.

Develops slowly or quickly. Flash floods can come with no warning.

Causes outages, disrupt transportation, damage buildings, create landslides

IF YOU ARE UNDER A FLOOD WARNING, FIND A SAFE SHELTER RIGHT AWAY

Do not walk, swim, or drive through flood waters

Stay off bridges over fast-moving water.

Determine your best protection based on the type of flooding.

Evacuate if told to do so

Move to higher ground or a higher floor

Staywhere you are.

HOW TO STAY SAFE WHEN A FLOOD THREATENS

Prepare NOW

Know your area's type of flood risk. Visit FEMA's Flood Map Service Center at [msc.fema.gov/portal](https://www.fema.gov/portal) for information.

Sign up for your community's warning system. The Emergency Alert System (EAS) and National Oceanic and Atmospheric Administration (NOAA) Weather Radio also provide emergency alerts.

If flash flooding is a risk in your location, monitor potential signs such as heavy rain.

Learn and practice evacuation routes, shelter plans, and flash flood response.

Gather supplies in case you have to leave immediately or if services are cut off. Keep in mind each person's specific needs, including medication. Don't forget the needs of pets.

Obtain extra batteries and charging devices for phones and other critical equipment.

Obtain flood insurance. Homeowner's policies do not cover flooding. Get flood coverage under the National Flood Insurance Program (NFIP).

Keep important documents in a waterproof container. Create password-protected digital copies.

Protect your property. Move valued items to higher levels. Declutter drains and gutters. Install check valves. Consider a sump pump with a battery.

Survive DURING

Depending on where you are, and the impact and the warning time of flooding, go to the safe location that you have identified.

If told to evacuate, do so immediately. Never drive around barricades. Local responders use them to safely direct traffic out of flooded areas.

Listen to EAS, NOAA Weather Radio, or local alerting systems for current emergency information and instructions.

Do not walk, swim, or drive through flood waters. Turn Around. Don't Drown.® Just six inches of fast-moving water can knock you down, and one foot of moving water can sweep your vehicle away.

Stay off of bridges over fast-moving water. Fast-moving water can wash bridges away without warning.

If your vehicle is trapped in rapidly moving water, stay inside. If water is rising inside the vehicle, seek refuge on the roof.

If trapped in a building, go to its highest level. Do not climb into a closed attic. You may become trapped by rising floodwater. Go on the roof only if necessary. Signal for help.

Be Safe AFTER

Listen to authorities for information and instructions.

Avoid driving, except in emergencies.

Be aware that snakes and other animals may be in your house. Wear heavy gloves and boots during clean up.

Avoid wading in floodwater, which can contain dangerous debris and be contaminated. Underground or downed power lines can also electrically charge the water.

Use a generator or other gasoline-powered machinery ONLY outdoors and away from windows.

Be aware of the risk of electrocution. Do not touch electrical equipment if it is wet or if you are standing in water. If it is safe to do so, turn off the electricity to prevent electric shock.

Take an Active Role in Your Safety

Go to [ready.gov](https://www.ready.gov) and search for flood. Download the FEMA app to get more information about preparing for a flood. Find Emergency Safety Tips under Prepare.

SAVE THE DATE!!

23rd Annual Earth Day Celebration

“One Earth, One Chance”

Saturday, April 22, 2023

Volunteers * Educators * Arts/Crafts * Food * Vendors

You are invited to join us for a wonderful day of fun, learning, and sharing at our Annual Earth Day Celebration. This community event is scheduled for 10 am - 2 pm at Oats Park in Fallon, NV on Saturday, April 22, 2023. A detailed official poster will be posted once the full events schedule and venue have been finalized.

Hosted By the Fallon Paiute-Shoshone Tribe
Environmental Protection Department
To volunteer, set up a booth, or for more information call
(775)423-0590 or email ileana@enviro@fpst.org

www.facebook.com/FPSTEPD

23rd Annual Earth Day

Poster Contest

“One Earth, One Chance”

We are accepting artwork that reflects the theme of this year’s Earth Day Event for our annual Poster Contest, "One Earth, One Chance." We only have this one Mother Earth, and this life is our chance to make a difference.

1st place winners of the poster contest will have their artwork displayed on t-shirts and other promotional material for the Earth Day events. Prizes will be awarded for 1st and 2nd place in each age category! Age categories are 5-10, 11-16, and 17+. The 1st place prize is \$50, and 2nd place prize is \$25.

All posters must be submitted to Ileana Valenzuela at the Community Learning Center at 1011 Rio Vista Drive by March 22, 2023 by 4 p.m. to be eligible for the

Hosted by the Fallon Paiute-Shoshone Tribe Environmental Protection Department

If you have any questions or would like to volunteer for any of this year’s Earth Week activities give us a call at (775) 423-0590 or email ileanaenviro@fpst.org.

EARTH DAY COMMUNITY CLEAN-UP

April 25, 2023 9:00 a.m.-1:00 p.m.

COLONY: SIGN-IN/OUT AT THE ENVIRONMENTAL OFFICE
RESERVATION: SIGN-IN/OUT AT THE COMMUNITY LEARNING
CENTER

The Environmental Department will once again be hosting its annual Earth Day community clean-up day for the reservation and colony areas. Community members and employee volunteers are invited to participate. Safety vests, trash bags, grabbers and water bottles will be provided at the sign in/out locations.

Please contact the Environmental Department at [423-0590](tel:423-0590) to register. Free lunch and Earth Day T-shirts to follow.

Sponsored by Environmental Protection Department

Hello, my name is Morgan Hale and I am the new Environmental Specialist that will be managing the Tribal Mosquito and Weed Abatement Program this season. I have worked in the construction field for many years. I recently worked for the Tribal Housing Department, which included many projects on the reservation and colony throughout the years.

I reside on the reservation and know how constant the mosquito problem is during the summer months. I will be dedicating my efforts to reducing the threat of the west Nile virus by controlling the mosquito population and addressing invasive weeds on the reservation.

If you see me out and about, please feel free to reach out and tell me of any mosquito populations or hatch off areas that you may know of. All I ask is for patience and communication from the community. Thanks, and when you see me, give me a wave for I am working for you. To report mosquito complaints or for information, please call my cell number at 775-493-1700 or email me at morganenviro@fpst.org.

Earth Day Cleanup

Residential Household Hazardous Waste Collection Day

The Environmental Protection Department will be hosting a residential household hazardous waste (HHW) collection day during Earth Day activity week in April.

WHO? Tribal Community Residents Only

WHEN? Wednesday, April 26, 2023, from 2 P.M. to 6 P.M.

WHERE? Housing Shop Area (enter from Agency Rd, exit onto Mission Rd.)

WHAT CAN I DISPOSE?

Garden products: pesticides, herbicides, fertilizers and sprays. Paints and related products: spray paint, stains, varnish, thinner, remover and adhesives. Household cleaners: bleach, solvents and sprays, acid and caustic cleaners. Auto products: old fuel, oil,

oil filters, waxes, polishes, additives and batteries. Propane tanks, aerosols, fire extinguishers. Photo and pool chemicals. Fluorescent lamps and bulbs. All appliances, ride on toys and E-waste.

Items Not Accepted:

Ammunition, Explosives, Asbestos, DEA Controlled Substances, Radioactive Waste (smoke detectors), Compressed Gas Cylinders (other than propane, aerosols and fire extinguishers), Preserved Wood, Laboratory Chemicals or Sewage. Commercial or Agricultural Hazardous Waste

Latex paint (Latex Paint is not toxic and once solidified can be disposed of in your household trash.)

Please keep the materials in their original containers whenever possible and

bring them to the collection site in cardboard boxes to ease unloading. Reusable containers will be emptied and returned.

Please remain in your vehicle until it is your turn to unload.

Used motor oil can be recycled on a regular basis by calling the Environmental Office at 775-423-0590.

EXAMPLES OF HHW

- Paint
- Cleaners
- Oils
- Batteries
- Pesticides

Public Works Replaces Well Pumps

Public Works & Welsco Drilling began well pump replacement to both wells to the water system serving the Fallon Paiute Shoshone Tribe, a major infrastructure project that will allow the utility to better serve the tribe and ensure the system's long-term reliability. Water and Sanitation Supervisor Cody Downs stated, "Well pumps are the heart of your well system, supplying the power needed to get the water to the inside of your home or water tank. Our pumps were over 20 years old and needed to be replaced. We also wanted to thank Welsco Drilling for all their help."

The wells will be equipped with new pumps, motors, well piping & wiring. These wells provide the drinking water for the tribe.

Public Works & Welsco well pump replacement

Keep your eye out for the Dirty Dozen

Avoid clogged pipes and costly repairs with these tips on what to stop flushing down the drain

Toilets are a modern-day convenience that take care of human waste, but they're not so great at disposing of other items. Flushing certain household products, instead of tossing them in the trash, can clog drain pipes, contaminate the water system, or even cause environmental damage.

Your pipes are only four inches in diameter at their widest, which means even small, seemingly harmless items can cause major plumbing problems. Hiring a professional to snake your clogged drain can cost hundreds of dollars, not to mention the expense of repairing water damage caused by an overflowing toilet. Prevent a plumbing emergency (and a costly bill) with these tips on what can and can't go down the drain.

Just because it says it's "flushable" does not mean it is "disposable" which is damaging to our pumps and to our lagoons. Plastics do not dissolve, so please no plastics such as condoms, diapers, anything made of cotton or any types of rags. Thank you.

Keep an eye out for the DIRTY DOZEN

THESE ITEMS SHOULD NEVER BE FLUSHED DOWN THE TOILET.

When these items are flushed down the toilet, they can cause problems in our homes, wastewater treatment network and the environment.

- Cotton Swabs
- Baby Wipes
- Facial Wipes
- Cleansing Pads
- Toilet Roll Tube
- Medicines
- Cigarettes
- Band-aids
- Diapers
- Tampons
- Tampon Applicator
- Sanitary Pads

PLEASE PUT THESE ITEMS IN THE BIN AND NOT DOWN THE TOILET.

2023 Congressional Art Competition

CELEBRATING THE YOUNG AND TALENTED ARTISTS OF
NEVADA'S 2ND DISTRICT

Amedei.House.Gov/Students

Each spring, the Congressional Institute sponsors a nationwide high school visual art competition, known as the Congressional Art Competition, to recognize and encourage artistic talent in each congressional district of our nation. Artwork will be judged on its aesthetics, display of talent, and relation to Nevada. This year's grand prize winner will be recognized at an annual awards ceremony in Washington, D.C. on Tuesday, June 20, 2023. The winning artist's work will also be displayed in the U.S. Capitol for one year.

Instructions:

- Submission deadline: **Friday, April 28, 2023.**
- One artwork submission per student.
- Artwork must be original in concept, may not violate any U.S. copyright laws, be two dimensional, and no larger than 26" x 26" x 4" when framed.
- Submissions will be accepted electronically at NV02.ArtCompetition@mail.house.gov or physically at my Reno office at 5310 Kietzke Lane, Suite 103, Reno, NV 89511.
- When submitting electronically, each student's artwork file must be named in this order: Art title, student's name, school, grade, teacher last name, medium category.

Please contact NV02.ArtCompetition@mail.house.gov or call my Reno office at (775) 686-5760 with any questions.

HOSTED BY THE FALLON TRIBAL HEALTH CENTER

TOI TICUTTA WELLNESS CENTER

T-SHIRT DESIGN CONTEST

Draw, sketch, or create a design that represents the Toi Ticutta Wellness Center. Must be original artwork. Be as creative as you can!

Submit your design with your name, phone number, and shirt size to clincservdir@fpst.org (if under 18, please include parental permission)

The **top 3 designs** will receive **\$50 WALMART GIFT CARD**. Each participant that submits artwork will receive a free t-shirt with one of the winning designs. All designs become property of the Fallon Paiute-Shoshone Tribe.

For more information contact Susan Bracamontes at 775.423.3634 or clincservdir@fpst.org

DON'T WAIT!
Register early for

KINDERGARTEN

NOW REGISTERING FOR 2023-2024!

Important notes for families:

IMPORTANT NOTICE: Per Senate Bill (SB) 102, your child must be 5 on or before 08/21/2023 (the first day of school for kindergarten).

*Please note: Legislation MAY change to require that a child must be 5 on or before August 1st to attend Kindergarten, but we will not know until this new legislation is considered. **You may register your child now** (if your child will be 5 on or before 8/21), but please know that your child may not be able to start kindergarten if legislation changes.

Children already enrolled in Northside Early Learning Center's Pre-K program, will automatically be enrolled in Kindergarten at Churchill County School District.

Items you will need for registration:

- State Issued Birth Certificate
- Child's Immunization Records
- A copy of a valid ID of parent/guardian enrolling the student.
- Proof of Address

Our registration process is fully online!

To register and to view additional information:

- Visit churchillcsd.com
- Click on the "Register for Kindergarten" icon on the homepage OR go to the Families & Students tab under General Information and click on "Kindergarten Registration for 23-24 School Year."
- Select "23-24" for Registration Year on the initial information page in Infinite Campus

PRE-KINDERGARTEN

At Northside Early Learning Center

Applications available NOW!

Accepting Applications at Northside Early Learning Center

Incoming students must turn 3 years old (3-year-old program) or 4 years old (4-year-old program) on or before August 21, 2023, and not be age-eligible for kindergarten.

IMPORTANT NOTICE: Per Senate Bill (SB) 102, your child must be 3 or 4 on or before 08/21/2023 (the first day of school for Pre-Kindergarten).

***Please note:** Legislation MAY change to require that a child must be 3 or 4 on or before August 1st to attend Pre-Kindergarten, but we will not know until this new legislation is considered. You may apply now (if your child will be 3 or 4 on or before 8/21), but please know that your child may not be able to start pre-kindergarten if legislation changes.

Qualification requirements & application information available online at:

www.ChurchillCSD.com
or Northside Early Learning Center
340 Venturacci Ln. 775-423-3463

Student Admission to Pre-K at NELC Pending Application Approval
Students from families that exceed the financial requirements will be placed on a waitlist.

****Please Note****

Free pre-kindergarten program, funded by Federal and State Grant funds, for qualified children and families up to the maximum funded capacity. Families are determined eligible for pre-kindergarten funding based on their verified family size, total annual gross income, and the maximum allowable income for eligibility. The maximum allowable income is determined by the Poverty Guideline, issued each January in the Federal Register by the Department of Health and Human Services, and is available online at www.hhs.gov.

PRAYER HORSE RIDE 2023

Riding through the wind and snow, (left) Joshua Dini & Gary McKinney

By Jill Wright tribalnews@fpst.org

As a group of horses and riders made their way to our tribal community, through the wind, rain, cold and at times even covered in snow.

The ride began in honor of late Myron Dewey. His younger brother Josh Dini stated, "The Prayer Horse Ride was started in honor of my brother, Myron Dewey and to ride in the vision of our Ancestors of prayer, healing, awareness, prosperity and unity. The Prayer Ride left Schurz on March 18 at the Walker River Paiute Tribe and will be riding to each community, ending at Peehee Mu'huh Thacker Pass.

Prayer Horse Ride 2023 visits Tribal Administration

As they ride to their destination, they want to bring awareness and hope for tribes going through difficulties. As they came through our community, they stopped off at our tribal administration building with gifts of prayer and respect. In turn, Aaron Brady presented them with gifts of sage sticks, pinenuts, and elderberry jam. Shirley Brady gifted them with yeast rolls for their journey. Safe Travels.

Are you a Native-owned or Tribal business?

Protect the Circle of Life

THE FLU & YOU

What is influenza (the flu)?

The flu is a contagious respiratory illness caused by influenza viruses that infect the nose, throat, and lungs. It can cause mild to severe illness. At times, it can lead to death.

Who should get a flu vaccine?

Everyone 6 months and older should get a flu vaccine, especially if you are at high risk for complications, or if you live with or care for someone who is high risk for complications.

Your family may be especially vulnerable to the flu.

Influenza poses a greater risk to certain people, including pregnant women, children, and elders, who are all at high risk for flu-related complications. In fact, pneumonia and flu are a leading cause of death among Native elders. The flu also can cause certain health conditions, including diabetes, asthma, and heart and lung disease, to become worse. Pneumonia and bronchitis are examples of serious flu-related complications, which can result in hospitalization and sometimes even death.

SIGNS AND SYMPTOMS OF THE FLU

People sick with influenza feel some or all of these symptoms:

- Fever* or feeling feverish/ chills
- Cough
- Sore throat
- Runny or stuffy nose
- Muscle or body aches
- Headaches
- Fatigue (very tired)
- Some people may have vomiting and diarrhea, though this is more common in children than adults.

**Not everyone with the flu will have a fever. You can be sick and contagious without running a temperature.*

HELP PREVENT THE SPREAD OF THE FLU

- Get a flu vaccine each year.
- Stop the spread of germs, including influenza viruses:
 - ♦ Cover your coughs and sneezes
 - ♦ Wash your hands often
 - ♦ If you're sick, stay home
- Take antiviral drugs if they are prescribed for you.

**PROTECT YOURSELF.
PROTECT YOUR PEOPLE.**

The influenza vaccine is safe. You can't get the flu from the flu vaccine.

People have been receiving flu vaccines for more than 50 years. Vaccine safety is closely monitored annually by the Centers for Disease Control and Prevention (CDC) and the Food and Drug Administration (FDA). Hundreds of millions of flu vaccines have been given safely to people across the country for decades.

The viruses in the flu shot are killed and the viruses in the nasal spray vaccine are weakened, so neither vaccine can cause the flu. A flu shot can have mild side effects, such as soreness or swelling where the vaccine was received, a mild fever, or aches. Mild side effects of the nasal spray can include runny nose, headache, sore throat, and cough. Any side effects you experience are not contagious to others and should disappear within 2 days.

When should I get a flu vaccine?

It's difficult to know when flu activity will peak. So vaccination before December is best to ensure protection. However, even getting vaccinated in December or later can be protective because influenza disease can last as late as May. It takes 2 weeks after getting the vaccine for your body to develop an immune response against influenza.

Why do I need to get a flu vaccine each year?

You need a flu vaccine each year because influenza viruses are always changing and immunity wanes over time. Each year, experts identify the influenza viruses that are the most likely to cause illness during the upcoming flu season. Your flu vaccine protects against those viruses. It does not protect against other viruses (such as colds or stomach viruses) or against very different influenza viruses not in the vaccine.

WHERE DO I GET A FLU VACCINE

- **Your local healthcare facility (even if you don't have a regular doctor or nurse)**
- **Mobile and community-based immunization clinics that visit many locations**
- **Pharmacies and grocery stores where available**

Ask your Community Health Representative (CHR) or Community Health Aide (CHA) for more information.

Community Members Take an Active Participation

Chairwoman Williams-Tuni would like to thank our tribal members for serving on our tribal committees and bringing all their expertise to the team. As you know, selecting new committee members is important and rewarding that help in the decisions making as a collective group. On behalf of the Fallon Business Council, thank you for your commitment to the values and mission of the Fallon Paiute Shoshone Tribe.

Chairwoman Williams-Tuni swears in Shalome Jimmy to the Cultural Committee

Chairwoman Williams Tuni swears in Hatti Williams to the Land & Water Committee

Vice Chairman Andy Hicks swearing in Mike Williams to the Cultural Committee

Chairwoman Williams Tuni swears in Russell Redner to the Election Committee

FALLON TRIBAL DEVELOPMENT CORPORATION

March 2023

FTDC would like to thank everyone for attending Fox Peak Fallon's Grand Re-Opening on March 4th. We were thrilled to have you join us and we are grateful for your support.

FTDC donated two family 4 packs from Fox Peak Cinema to the Future Fest Fundraiser auction at Oasis Academy for their 5th Annual Future Fest being held on April 21, 2023 at the Rafter 3C Arena in Fallon, Nevada. This school supports Basketball, La Crosse, Golf, Volleyball, Wrestling, Softball, Cross Country Track and of this year Baseball. Oasis Academy's goal this year is to purchase vans and a bus for transportation, because this charter school does not have buses, this becomes challenging when a player's family isn't able to attend away games.

FTDC donated two family 4 packs from Fox Peak Cinema to the Churchill County Parks and Recreation Department for their annual Fallon Shoot Out Youth Coed Basketball Tournament that was held on March 17-19 at the City-County Gym in Fallon, Nevada.

This year there were 22 teams from surrounding communities. Throughout the tournament there was a 3 point shoot out contest for youth and adults to participate in, with movie passes from Fox Peak Cinema as a prize. One movie pass per winner or a 2 liter soda.

National Alcohol Awareness Month – April 2023

It takes more than a day to educate the American youth about the risks of getting stowed. April marks National Alcohol Awareness Month and is sponsored by the National Council on Alcoholism and Drug Dependence (NCADD) to educate the masses about America’s #1 health problem: alcohol dependence. Claiming the lives of more than 90,000 people every year, this month focuses on raising awareness about alcohol abuse and dependency before it is fatal.

What is Binge Drinking? Binge drinking is when blood alcohol concentration comes to 0.08 g/dL, which happens when a man drinks five glasses and a woman drinks four in about two hours.

How does it affect health? Long-term, excessive drinking of alcohol can gravely affect your health and leads to chronic diseases including high blood pressure, liver disease, digestive problems, and even cancer.

What can you do? Start conversations

It is your role as a responsible adult to initiate the conversations that nobody is willing to talk about. Speak with your friends and families who you’ve noticed are reliant on heavy drinking. As a parent, teach your children about alcohol misuse and help them build coping skills. Tell them that stress, anger, loneliness, and peer pressure are a part of life and should not cause them to give in to liquor for relaxation. For more information contact the Behavioral Health Program at the Fallon Tribal Health Center, (775) 423-3634.

NOTICE TO CREDITORS

NOTICE IS HEREBY GIVEN that the undersigned has been appointed and qualified by the Fallon-Paiute Shoshone Tribal Court on August 2, 2022 as Administrator of the Estate of Susan Keller-Smith, Deceased.
